

# Haslington Parish Council Environmental Policy

## Policy Statement

Haslington Parish Council aims to carry out its activities with environmental efficiency, actively seeking to protect and enhance the local environment and biodiversity within the Parish and surrounding area whilst endeavouring to ensure wider adverse environmental impact does not occur as a result

## Context

The Parish Council recognises that a climate emergency has been declared at national, regional and within some organisations at a local level

The Parish Council will consider the impact its activities have on both climate change and biodiversity issues and will endeavour to introduce measures that either mitigate negative outcomes or actively support beneficial outcomes, where this is practicable and affordable within the resources and financial capabilities of the Council

The Parish Council will specifically consider the following:-

- The impact that operating its assets has on the environment
- The impact that goods and services are procured, including the environmental commitment of its suppliers, has on the environment
- Where possible, and appropriate, replace environmentally inefficient assets with environmentally friendly alternatives
- The impact that execution of the Parish Council's activities may have on the environment

## Aims

In all its activities, the Parish Council will aim to:-

- Minimise the consumption of all resources used in its operation, particularly in respect of buildings and equipment its uses
- Seek, wherever possible, to only use contractors and suppliers who have their own environmental policy which is continually reviewed, updated and measured against recognised best practice examples
- Where possible, affordable and commensurate with Parish Council powers and duties, support local initiatives aimed at climate change, and or, biodiversity protection or enhancement

## Principles

Haslington Parish Council will strive to:-

- Meet all relevant environmental legislation and regulations
- Regularly update and improve standards in light of increased understanding and knowledge
- Avoid the creation of unnecessary waste by adhering to a policy of considered, strategic purchasing
- Recycle and reuse materials where possible
- Dispose of necessary waste through safe and responsible methods
- Investigate the use of sustainable energy sources
- Respect and protect the natural resources by practicing conservation and good management
- Encourage contractors and suppliers to minimise their impact on the environment
- Encourage its Members and employees to take responsibility for ensuring that the best environmental policy is used and adhered to at all times
